

AZERBAIJAN STATE AGRICULTURAL UNIVERSITY

Name: Zahra

Last name: Abdullayeva

Patronymic: Gidayat kyzy

Date of birth: 25.06.1949

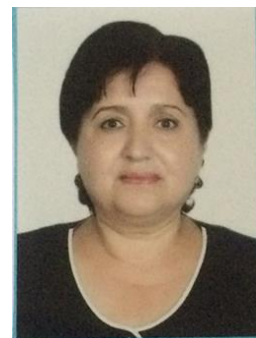

Work phone:

Mobile:+0557066487

E-mail: asifamin@mail.ru

Faculty: Soil Science and Agrochemistry

Department: Soil Science

EDUCATION, SCIENTIFIC DEGREES AND SCIENTIFIC NAMES

In 1971, she graduated with honors from the Agronomic Faculty of the AzSHI, majoring in "Agrochemistry and soil science".

Since 2010, Associate Professor of ASAU

EMPLOYMENT

From 2010 to the present day, Senior lecturer, Associate Professor of ASAU;

From 1997 to 2010, Senior lecturer of the Department of " Agrochemistry, Soil Science and Land Reclamation»;

From 1992 to 1997, Assistant of the Department of " Soil Science»;

From 1989 to 1992, Senior laboratory Assistant at the Department of " Soil Science and Land Management»;

From 1971 to 1989, laboratory assistant at the Department of " Soil Science and Agricultural Land Reclamation»;

On 26.07.1971, she was hired as an agronomist-seed grower at the AzSHI.

Author of 2 textbooks, 1 methodological guide, 52 articles and 18 training programs.

RESEARCH AREA

Identification of soil fertility parameters located in the vicinity of Ganja, development of measures to improve these indicators and their implementation.

AT INTERNATIONAL SEMINARS, SYMPOSIUMS AND CONFERENCES PARTICIPATION

1. 2010-th year "Introduction of innovative technologies and forms of international cooperation in the system of agricultural education ", International Scientific and Practical Conference, Ganja
2. 2012 International Scientific Conference: "Soils of Azerbaijan: genesis, geography, land reclamation, rational use and Ecology" ANAS-Agricultural Department, Baku-Gabala
3. 2015 International Scientific and Practical Conference "Innovative Development of Agricultural Science and Education: World Practice and Modern Priorities", Ganja

SCIENTIFIC WORKS

1. "The role of microorganisms in the formation of the organic part of the soil" - Society of Soil Scientists of Azerbaijan, Collection of Works, volume XI, part 1, Baku, 2010, pp. 185-189
2. "Problems of nitrate accumulation in plants during fertilization" - " Introduction of innovative technologies and forms of international cooperation in the system of agricultural education ", International Scientific and Practical Conference, Ganja, 2010, pp. 59-61
3. "Study of biological activity of mountain-forest brown soils in the territory of Dashkesan district" - " Introduction of innovative technologies and forms of international cooperation in the system of agricultural education ", International Scientific and Practical Conference, Ganja, 2010, pp. 78-80
4. "Biological activity of gray-brown soils" - Society of Soil Scientists of Azerbaijan, Collection of Works, volume-XX, No. -1, Baku, 2011, pp. 562-566
5. "The influence of irrigation on soil salinization" - International Scientific Conference: "Soils of Azerbaijan: Genesis, geography, land reclamation, rational use and Ecology" ANAS-Agrarian Department, Baku, 2012, pp. 391-392
6. " Ecological aspects of assessment of soil fertility parameters under new land use conditions in the mountainous territories of Shamkir and Tovuz districts ", Proceedings of the Republican Scientific and Practical Conference, Ganja, ASAU, 2013, pp. 73-75

7. "The influence of forms and norms of nitrogen fertilizers on the accumulation and distribution of nitrates in tomato fruits" - ANAS, Institute of Soil Science and Agrochemistry, Zhur. Soil Science and Agrochemistry, vol. 21, no. -3, pp. 303-307
8. "The fertility parameters mountain-forest brown soils of Shamkir district", Nana , a Regional research center, Ganja, proceedings No. 51, Ganja-2013, pp. 130-133
9. . "Environmental aspects of the assessment of soil fertility parameters in the new conditions of land use in foothill areas Tovuz and Shamkir regions ", Scientific works of the Ganja, Ganja, 2014, pp. 53-57
10. "The key role of soil in resolving food security "- international Scientific-practical conference "Innovative development of agricultural science and education: World experience and current priorities", proceedings of the international conference Ganja, 2015, vol. 1, pp. 51-55
11. "Rational use of soils",GSU, actual problems of modern chemistry and biology, proceedings of the conference dedicated to the 93 anniversary of the birth of Heydar Aliyev , part IV, Ganja, 2016, pp. 215-218
12. "State policy of Azerbaijan in the field of povysheniya soil fertility" – a conference dedicated to the 80th anniversary of M. I. Jafarov, Ganja, 2016,pp. 66-69
13. "Water-physical properties of soils and some problems using winter pastures of Jeyranchel"- the community of pochvovedov of Azeraijan, volume 14, Baku - 2016, pp. 76-79
14. "Ecological functions and problems of agrochemistry" - textbook, Ganja, 2017, 89 p.
15. "Dictionary and reference book of a soil scientist-agrochemist" - textbook, Ganja, 2019, 124 pages
16. " Indicators of fertility of gazhevizh gray-brown soils distributed on the territory of the educational and experimental farm of ASAU, ANAS, Regional Scientific Center, Ganja, Collection of works No. 2 (76), Ganja-2019, pp. 173-178
